

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

in any court of competent jurisdiction. Such notice shall be served in the following manner: By delivering a copy of the same to such person, or by leaving a copy of the same with some person at the residence of such person, or by posting a copy of the same in a conspicuous place on the residence premises of such person, or on the premises where such nuisance is created, permitted, or maintained. Such notice shall describe the nuisance and designate the premises where the same is created, permitted, or maintained with reasonable certainty. The giving or failure to give this notice shall not in any way affect prosecutions for violation of this ordinance.

Garbage—Receptacles for Required. (Ord. 1589, Apr. 14, 1914.)

SEC. 19. Every tenement, lodging house, or restaurant keeper shall have proper and suitable tight-covered metallic cans or receptacles for receiving garbage and other refuse matter, the same to be of galvanized iron or other material, approved by the health officer.

Privies and Cesspools—Construction and Care—Sewer Connections. (Ord. 1589, Apr. 14, 1914.)

SEC. 14. No building shall be used as a dwelling house in the city unless the same is provided with a privy vault or properly connected with a cesspool or sewer; all buildings and structures in the city used either as dwelling houses or for business purposes shall be provided with sufficient and adequate toilet accommodations.

SEC. 15. *Sewer connections required.*—No privy vault or cesspool for sewage shall be constructed in any part of the city of Everett where a sewer is provided in front of the property lines or in the alley at the rear of said lines, and no connection from any cesspool or privy vault shall be made with any sewer or drainpipe of a building for the purpose of affording surface drainage for a cellar without proper provisions against the access of sewer air into the building. When connection for sewerage is made with the sewer, any vault or cesspool on the premises so connected shall be cleaned out and filled with dirt.

SEC. 16. No person shall abolish, abandon, or neglect any privy, cesspool, or vault containing any excrement, filth, or other offensive matter, or fill up any such privy, cesspool, or vault upon any premises owned or occupied by such person or persons without first removing completely therefrom all filth, and then filling up the same with earth.

SEC. 17. No privy, vault, or cesspool, or other reservoir into which sewage or refuse is drained or deposited, shall be constructed or maintained in such condition or manner as to cause, through leakage or overflow, pollution of the soil near or about any habitation, or of any spring, well, or other source of water used for drinking or culinary purposes; nor shall the overflow from any such receptacle be permitted to discharge into any street, avenue, alley, or public place, or upon any private premises in such manner as to be dangerous to health.

Wherever such privy, vault, or cesspool is so situated as to be liable to be flooded with water upon the occurrence of rainstorms the health officer in his discretion may order such privy, vault, or cesspool cleaned out and filled with earth, and the privy or outhouse provided with water-tight boxes or iron pans.

SEC. 18. No person shall construct, without a written permit from the health officer, any privy, vault, or cesspool within 20 feet of any house or residence, or building in which perishable food is kept or stored, nor within 6 feet of the boundary line of the premises on which it is built.

The walls of such vault or cesspool shall be of brick, cement, stone, or sound plank of not less than 2 inches in thickness. The bottom of all vaults and cesspools shall be smooth and level in surface. The size of all vaults hereafter constructed shall be not less than 5 feet in depth, without special permit from the health officer, and 2½ feet by 4 feet in length and width. All vaults shall be fly proof and be closely boxed or walled at the top with the privy building, and a ventilating pipe of wood or other material of not less than 4 inches in diameter shall extend from the top of the vault to 2 feet above the building.

Every privy shall be provided with close-fitting covers, subject to the approval of the health officer. Every cesspool hereafter constructed shall be not less than 10 feet deep without special permit from the health officer, nor less than 3 feet in diameter if of circular form, nor less than 12 square feet in surface measurement if rectangular. Every cesspool shall be provided with close-fitting covering, subject to the approval of the health officer. No person or persons shall throw or deposit in any privy, vault, or cesspool any garbage, cans, crockery, or other rubbish whatsoever, and the owner or occupant of premises shall be responsible for the condition of all privies, vaults, and cesspools on the same.

Stables; Construction and Care—Manure; Care and Disposal. (Ord. 1589, Apr. 14, 1914.)

SEC. 7. No person shall keep, use, or maintain in the city of Everett any pen, lot, stable, or place where horses, cattle, or fowls are kept which is foul, nauseous, offensive, or detrimental to health.

SEC. 8. Persons maintaining stables, stalls, or apartments in which horses or cattle are kept, or places where manure and solid or liquid excrement accumulates and collects, shall keep such premises in a cleanly, healthful, and wholesome condition, and shall allow no offensive smells and odors to escape therefrom, and shall thoroughly clean the same, and remove all manure and excrement therefrom at least once each week, and as often as directed so to do by the health officer: *Provided, however,* That the health officer may not require such cleaning to be done oftener than once a day.

SEC. 9. Every such stable or apartment in which horses or cattle are kept shall be provided with one or more tightly covered metallic cans or an inside manure pit or vault of sufficient capacity to care for all manure which may collect in such stable or apartment: *Provided, however,* That stables already constructed and now being used as such having outside vaults satisfactory to the health officer shall continue to use the same. All manure pits and manure cans shall be water-tight and fly proof, and the material and construction of the same shall be subject to the health officer's approval. All manure pits shall have ventilating shafts, which shall extend from immediately above the pit to above the main roof of the building, and no such shaft shall terminate within 20 feet of any window or other opening of an adjoining building. The floors of such stables or apartments shall be constructed of concrete or other material satisfactory to the health officer, and a permit shall be obtained from the city health officer to construct any floor other than one of concrete. All such stables and apartments shall be so constructed and connected with a public sewer, that all liquids and drainage from the same shall flow into the sewer and not into or upon any private or public premises.

SEC. 10. No stable shall be constructed or structure used as such without a permit from the board of health, and no permit shall be issued where such stables would be or become a nuisance.
